E-class number:	40-21-01-01	Gross weight:	9.66 kg
Customs tariff number:	84798997		

DATASHEET

DEUS ONE

The DEUS ONE is a personal, fully automatic self-evacuation device. The very small, handy format offers intuitive operation in emergency situations and is ready-to-use due to its configuration with rope and steel carabiners. Without any necessary additional intervention in the abseiling process, even injured or unconscious persons arrive safely on the ground. The extremely compact and lightweight hybrid rope is only 5.9mm thick and heat-resistant up to 450°C. The set is maximally protected from moisture in a Sealpac packaging and can thus achieve a 15-year service life. All components are packed very practically in a compact, protective bag with adjustable straps, making it easy to take to any workplace.

FEATURES

Colour:	Black, Orange
---------	---------------

Lifting function:	No
-------------------	----

Maximum load 1 person:	140.00 kg
------------------------	-----------

Maximum lifetime:	15 years
-------------------	----------

Maximum number of persons:	1
----------------------------	---

Maximum load:	140.00 kg
---------------	-----------

Minimum compatible rope diameter:	5.90 mm
-----------------------------------	---------

Maximum compatible rope diameter:	5.90 mm
-----------------------------------	---------

Min. abseiling speed:	0.50 m/s
-----------------------	----------

Max. Abseil speed:	2.00 m/s
--------------------	----------

Panic function:	No
-----------------	----

Rescue function:	No
------------------	----

DIMENSIONS

Rope length:	200.00 m
