E-class number:	40-21-04-01
Customs tariff number:	63079098

Net weight:	0.52 kg
Gross weight:	0.62 kg

DATASHEET

TOP X

The TOP X chest harness is engineered for arborists, tree care professionals, and rope access technicians who require maximum freedom of movement, low weight, and seamless system integration in daily operations. When combined with a compatible sit harness such as the ARBO system, it forms a full EN 361 certified fall arrest harness, significantly expanding its application range from arboriculture to advanced rope access work.

The intuitive front connection system allows for fast and secure donning, a clear advantage in dynamic working environments. The sternal textile attachment point enables quick and safe clipping, even under load, while keeping overall weight and bulk to a minimum—ideal for efficient rope system setups.

Ergonomic crossed back straps ensure optimal load distribution and a stable fit, even during extended use in the canopy. Three adjustable buckles allow precise and quick sizing, making the harness adaptable to different users and changing clothing layers.

Thanks to its lightweight and compact design, the TOP X is particularly suited for mobile tree care applications. At the same time, it delivers durability through robust materials and high-quality components designed for long-term professional use.

The TOP X combines comfort, flexibility, and performance, making it the ideal chest harness for arborists and rope access professionals—whether for ascent, positioning, or technical rescue scenarios.

FEATURES

Colour:	Black
Attachment points:	Sternal polyamide attachment point
Maximum lifetime:	10 years
Minimum hip size:	0 cm
Maximum hip size:	0 cm
Minimum leg size:	0 cm
Maximum leg size:	0 cm
Min. temperature:	-35 °C
Max. temperature:	60 °C
Adjusting buckles:	Adjusting buckles shoulders, Adjusting buckles torso

DIMENSIONS

Size:	One Size
