OBX S

GENERAL

Art.Nr:	H-400
GTIN:	8053841302668
E-class number:	40-21-07-12
Customs tariff number:	76169990

Standards:	EN 12275:2013/B
Net weight:	0.07 kg
Gross weight:	0.07 kg

DATASHEET

OBX S

The OBX S is an oval carabiner made of hot-forged aluminum with a straight gate. It serves as a versatile all-purpose carabiner for sport climbing, alpine climbing, multi-pitch routes, technical climbing, mountaineering, and other applications where gear, ropes, or equipment must be neatly organized and routed. The oval shape helps ensure even positioning of ropes and gear within the carabiner. This makes the OBX S particularly well-suited for rope maneuvers, gear organization, and applications where clear routing of connection points is required. The ergonomic design makes it easy to open the gate and ensures comfortable handling during use. Reinforced contact areas improve rope glide and increase resistance to wear. The Catch-Free closure makes it easy to clip in and out of ropes, devices, and anchor points without annoying snagging. With a gate opening of 23 mm, a breaking load of 24 kN in the longitudinal direction, and certification to EN 12275:2013/B, the OBX S offers a robust and reliable solution for a wide range of climbing and rope applications.

FEATURES

Colour:	Orange, Grey
Gate opening:	23 mm
MBS MAJOR AXIS:	24 kN
MBS GATE OPEN:	7 kN
MBS MINOR AXIS:	12 kN
Form fit:	Key Lock
Carabiner type:	Type B (EN 12275: 2013)
Maximum lifetime:	30 years
Min. temperature:	-30 °C
Max. temperature:	50 °C
UIAA compliance:	Yes
Hot forged:	Yes
Locking mechanism:	Straight Gate

DIMENSIONS

Product length:	112.00 mm
Product width:	63.00 mm

MATERIAL

Material:	Aluminium
