DATASHEET

ARBO ADJUSTER

GENERAL

Art.Nr:	ACS-0967	Net weight:	0.07 kg
GTIN:	8053841309001	Gross weight:	0.17 kg
Customs tariff number:	58063210		

DATASHEET

ARBO ADJUSTER

The adjustment system for side D-rings is designed for professional users working at height who require reliable adjustability, easy maintenance, and long-lasting equipment. Its robust construction ensures secure and precise positioning of the D-rings on the fall arrest harness, supporting safe and consistent performance in demanding daily operations.

At its core, the system improves the serviceability and efficiency of fall protection harnesses. Individual components can be quickly replaced, enabling fast repairs and minimizing downtime. At the same time, the stable design ensures secure adjustment and dependable functionality during work at height.

The service-friendly construction significantly simplifies maintenance and servicing. Components can be exchanged with minimal effort, extending the service life of the harness and streamlining maintenance processes. This reduces operational effort and supports long-term reliability in professional height safety applications.

In addition, the system stands out for its ease of use and seamless integration into existing harness systems. The intuitive adjustment mechanism allows quick repositioning of the side D-rings, improving efficiency and control during use.

The result is a durable and maintenance-friendly adjustment system for professional fall arrest harnesses, combining safety, easy repair, and reliable adjustment in one efficient solution.

FEATURES

Colour:	Black
Min. temperature:	-35 °C
Max. temperature:	60 °C

MATERIAL

Material:	Polyamide, Polyester
