TOP Y

GENERAL

Art.Nr:	G-1202
GTIN:	8053841309063
E-class number:	40-21-04-01
Customs tariff number:	63079098

Net weight:	0.66 kg
Gross weight:	0.76 kg

DATASHEET

TOP Y

The TOP Y chest harness is designed for professional arborists who need a lightweight, functional, and versatile solution for daily rope access work. Its classic Y-design distributes load evenly across shoulders and chest, improving stability and reducing fatigue during extended use in the canopy. The ergonomic fit ensures controlled movement and consistent comfort throughout demanding tree care operations.

When combined with a compatible sit harness, the TOP Y can be converted into a full EN 361 certified fall arrest harness. This makes it suitable for both standard arborist tasks and advanced rope access techniques. The central sternal metal attachment point allows secure and reliable integration into personal fall protection systems.

A key advantage for arborists is the modular system design. The chest harness can be optionally equipped with a chest ascender, enabling an efficient single rope technique (SRT) setup. This supports smooth, energy-efficient upward movement and significantly improves climbing performance in vertical access scenarios.

Despite its functionality, the harness remains lightweight and compact, making it ideal for mobile applications in tree care. It integrates seamlessly into existing equipment setups without adding unnecessary bulk.

The TOP Y combines ergonomic design, modular flexibility, and certified safety, making it a reliable choice for professional arborists focused on efficiency, comfort, and a clean, functional system in the tree.

FEATURES

Colour:	Black
Attachment points:	Sternal aluminium attachment point
Maximum lifetime:	10 years
Minimum hip size:	0 cm
Maximum hip size:	0 cm
Minimum leg size:	0 cm
Maximum leg size:	0 cm
Padding:	Shoulder paddings
Adjusting buckles:	Adjusting buckles shoulders, Adjusting buckles torso

DIMENSIONS

Size:	One Size
-------	----------

MATERIAL

Material:	Aluminium, Polyamide, Polyester
