

AXIS HMS TG

REF.NO. 2C38600XPE

Large HMS carabiner with wide opening and triplex twist-lock gate, made of hot-forged light alloy, designed for use in mountaineering, recovery manoeuvres and rescue operations.

Main features:

- shape guarantees correct axial loading relative to rope and other devices;
- large size and ample width to allow use of Munter hitch knot, the securing of more than one rope, slings or devices and rope manoeuvres in general;
- accentuated double-T profile, for an excellent weight/load ratio;
- lightened and shaped form for improved ease of holding;
- catch-free closure to avoid accidental tangling during use.

   Grey / Silver / Green
