CMC PROSWIVEL™ PULLEYS

CLASSIFIED TO NFPA 2500
GENERAL AND TECHNICAL USE

SCAN FOR MORE DETAILS

The CMC ProSwivel Pulleys combine a swivel and pulley into one device with an innovative sideplate that opens while the pulley is still attached to the anchor. Teaming up with Rock Exotica, CMC now offers more swivel pulleys dual-certified to NFPA and EN standards. Our expanded line includes a full range of pulleys to choose from so you can pick the best tool for the job.

FEATURES & BENEFITS

- Patented, time-tested, and proven as the original swivel pulleys.
- Combined swivel & pulley reduces system length, allowing more travel.
- Pivoting sideplate allows rope loading without disconnecting from anchor.
- Double-action detent button prevents accidental opening of the sideplate.
- Sheave is mounted on sealed ball bearings for maximum efficiency.
- Rotating swivel aligns rope with the load.
- Swivel can be secured using rope, web, or carabiners.
- Ergonomic design for anchoring and loading rope with one hand.
- CNC machined for optimal strength & weight.
- Prusik minding options facilitate progress capture.
- Compatible with rope up to 13 mm (1/2 in).
- Ideal for rescue, work at height, and tree care.
