H02039 PHONE GRIPPER

0.3 KG

0.6 LB

MAX LOAD

The GRIPPS® Phone Gripper, when paired with a load-rated tether, utilises purpose-built silicon to provide a secure tethering solution without impacting device functionality.

Now, you can tether your phone or mobile device without needing a permanent or semi-permanent connection point. Used in conjunction with a load-rated tether, the GRIPPS® Phone Gripper use purpose-built silicon to create a load-rated tethering solution with zero impact on device operation.

Unlike traditional methods that involve applying strong adhesives directly to your mobile device, which can damage its finish upon removal, the GRIPPS® Phone Gripper offers a flexible design.

This design enables you to tether your mobile device “on-demand,” granting you the freedom to use your device without constraints when working at height.

*Coil tether sold separately.

KEY FEATURES

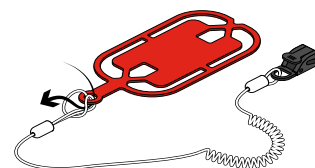

SPECIFICATIONS

SKU	MAX LOAD	MAX SIZE
H02039	0.3 kg 0.6 lb	16 cm x 8 cm x 1 cm 6.2 in x 3.1 in x 0.39 in

HOW TO USE

TETHER APPLICATION

1

Pass cord through Phone Gripper eyelet and weave it back through its own loop to create a choke-hold. Pull tight.

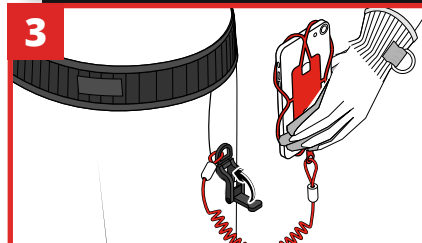

PHONE GRIPPER APPLICATION

2

Pull all four corners of the Phone Gripper over the corners of your device. Ensure all corners are firmly applied and the Phone Gripper has a snug fit over device.

3

Apply the clip of the coil tether to your clothing by sliding the clip over the garment and snapping shut the clip. Ensure the clip is closed correctly by firmly pulling on the tether to check for a secure hold.
