HV Outdoor ripstop trousers

1SSFA2PTH

Designed for demanding working conditions, these trousers combine durability, comfort, visibility and practical functionality. The abrasion- and tear-resistant RIPSTOP Tektor reinforcements on the front and back of the calves provide extra durability, while waterproof knee reinforcements help keep you dry when kneeling on wet surfaces. Ventilation zips at the back of the legs offer additional airflow when needed. Integrated boot gaiters help keep sawdust out and provide a mechanical barrier against ticks. With multiple practical pockets, including a dedicated ruler pocket, your essentials are always within easy reach. In addition, an elasticated waist and adjustable leg endings ensure a comfortable fit throughout the working day.
