DATASHEET

OBX WGL

Hot-forged light alloy oval twistlock carabiner with the ACL system. Ideal for racking gear and for rigging in mountaineering and aid climbing rope manoeuvres.

Main features:

- oval shape for optimal positioning of devices and ropes;
- ergonomic shape which enables a good opening of the lever and improves handling;
- equipped with the ACL system which allows it to be attached to the harnesses belay loop, maintaining the correct alignment between the carabiner and the device even during the most demanding manoeuvres;
- reinforced contact areas for better rope sliding and resistance to wear and tear;
- the line between the nose and the internal part of the connector is smooth and facilitates insertion and/or disconnection from anchors, tools and ropes;
- catch-free closure.
