DATASHEET

SAFETY KIT CS 2

The SAFETY KIT, consisting of a CS 2 all-round harness, a moving fall arrester and the Loop 26 kN webbing sling, is indispensable for versatile applications in industry and trade. The SKN BFD SK11 multi-purpose fall arrester with integrated webbing fall arrester offers a large range of movement thanks to its 10 m rope length. It is approved for user weights of up to 140 kilograms and, because it is suitable for use on edges, can be used both for vertical ascents and for horizontal work on fall edges. Both can be conveniently stored in the ROPE BAG.
