H01040 GRIPPLOCK CABLE - 3MM X 120MM (5 PACK / 10 PACK)

The GRIPPS® Gripplock Cable quickly forms a permanent tether connection from existing hang-holes or slots within seconds. Made from aircraft-grade steel, the fully load-rated and certified GRIPPS® Gripplock Cable ensures both reliability and durability.

Instantly create a certified connection point with a GRIPPS® Gripplock Cable. These innovative connectors swiftly secure, forming a permanent tether connection from existing hang-holes or slots within seconds. Crafted with a core band forged from aircraft-grade steel.

Easily create a secure tool connection point by simply threading the GRIPPS® Gripplock Cable through your tool's existing hang-hole or slot and locking the heads together. No additional thread-locking compound required.

Available in packs of 5 and 10.

1 KG

2.2 LB

1

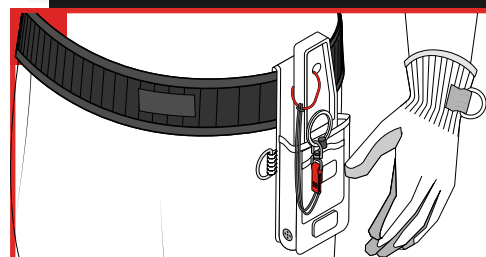

Feed the Gripplock Cable through the pre-formed hole in the tool.

2

Join the two ends together, ensuring a firm application and click sound is heard/felt. Test that Gripplock Cable cannot be separated by tugging both ends firmly

Your Gripplock Cable is now ready to connect with a suitable GRIPPS® tether.
