DATASHEET

CLAW SKC EVO+

The SKC EVO+ removable climbing protection runner combines the highest safety standards with a user-friendly design. Thanks to the innovated double action opening system, the device only opens in the correct sequence, preventing unintentional opening. The patented protection function against incorrect installation ensures additional safety in demanding areas of application. The compact design and low weight make handling easier, while intermediate supports can be driven over without manual intervention. An integrated tape energy absorber reduces fall forces to a minimum. Certified in accordance with EN 353-1:2014+A1:2017, the fall arrester is suitable for people weighing between 50 and 140 kg and is compatible with CLAW LINE and BORNACK SSE. Thanks to its low-revision design and inspections in accordance with DGUV principle 312-906, maintenance is minimal.

- Increased safety: Double action opening system and patented fall-over protection function prevent incorrect operation
- High comfort: Compact design, low weight and easy handling
- Low-maintenance & flexible: Low-maintenance design, suitable for 50 to 140 kg and compatible with CLAW LINE and BORNACK SSE

FEATURES

Colour:	Orange, Silver
Maximum lifetime:	10 years
Maximum number of persons:	1
Maximum load:	140.00 kg
Minimum temperature:	-30 °C
Maximum temperature:	45 °C
Rope access technique:	No
Vertical systems:	Vertical rope system

DIMENSIONS

Rope length:	0.00 m
Minimum height:	0 mm

MATERIAL

Material:	Stainless Steel
